Universal Weather Sealing Kit for Coaxial Cable Applications

TYPICAL APPLICATIONS

WS-KU
Universal Weather Sealing Kit

PRODUCT DESCRIPTION

The Universal Weather Sealing Kit is a versatile kit used to protect coax connector junctions from moisture ingress and to prevent vibration from loosening the connection. The Universal Weather Sealing Kit accommodates connections consisting of any size coax from 1/2" to 5", simplifying ordering, inventory management, and installation setup. Each Kit features a combination of butyl mastic and electrical tapes, which is applied using a multi-layer wrapping procedure to create a long-term environmental seal for main feed, jumper, and antenna connections. The kit consists of six 2-1/2" (63.5mm) x 24" (609.6mm) rolls of butyl mastic tape, two 66' (20.1m) rolls of 3/4" (19.1mm) wide electrical tape, and one 20' (6.1m) roll of 2" (50.8mm) wide electrical tape unless otherwise specified in below table.
