

## Stand-off Adapter Kits for Snap-in Hanger Applications

### TYPICAL APPLICATIONS

### PRODUCT DESCRIPTION

Stand-off Adapter Kits enable hangers to be mounted to 1" (25.4mm) or larger round members. The Stand-off Adapter is made to accommodate Snap-in Hangers. The Stand-off Adapter is available in stainless steel to provide excellent corrosion resistance and ensure long term integrity in extreme weather applications. Round Member Adapters, which are included in certain kits, are manufactured from stainless steel as well. Please see chart for specific material list of each kit.
