

Barrel Cushions

TYPICAL APPLICATIONS

PRODUCT DESCRIPTION

Barrel Cushions provide versatility in all applications reducing material and installation costs by having multiple holes in a single cushion with a single attachment point. The unique design allows them to be individually installed utilizing Butterfly Hangers or stacked out with Stackable Hangers and Cable Blocks. Barrel Cushions are manufactured from UV resistant EPDM rubber, which is durable in extreme temperatures and harsh environments. Barrel Cushions are available in multiple sizes to accommodate what the industry demands for installation of all your fiber, power, elliptical, and coaxial cable requirements.
