Round Member Adapter Plastic for Hanger Applications

TYPICAL APPLICATIONS

PRODUCT DESCRIPTION

Round Member Adapters (Ezyclamps™) are a quick and easy non-conductive, non-corrosive install method for supporting transmission lines to small diameter pipes or poles. Round member adapters also provide effective solution to mitigate passive intermodulation around 15 feet of high-risk PIM zones. Clamps are made from highly versatile and weather resistant Nylon 66 material to last longer. Round Member Adapter is 13mm (1/2") wide and available in 5 sizes covering a diameter range of 25mm (1") to 152mm (7"). Screw type is made from Nylon 66 which has superior strength and creep.
